OPEN LAWN / PICNIC AREA

SCULPTURAL ARBOR

NATIVE GRASSLAND GARDEN

HARDY NATIVE PLANTINGS

CURVED BENCH SEATS

DESIGN STATEMENT

This design will give new life to the site by providing a green oasis for the community and increase connection to the Moonee Ponds Creek Trail.

A large feature tree will give shade to the curved seating spine as it weaves through the site. Gaps in the seating wall provide views to the tree's trunk and allow for increased site circulation. Restrained use of recycled bricks salvaged from the demolition will pay subtle homage to the site's previous life.

A custom arbor framing the central walkway will entice people into the space and provide vertical interest before the new trees mature. The arbor will be laden with climbing plants and serve as a local landmark.
