

JH Allan Reserve Management Plan

This management plan will be in effect for 12 months following the installation of sports field lighting at JH Allan Reserve, to ensure use of the site in alignment with Council expectations.

Ground Allocation

- Ground allocations will conclude by the following times:
 - Monday to Friday - 9pm
 - Saturday and Sunday - 7pm
- Lights can only be used 5 days per week.
- Lighting timers have been installed to ensure auto turn off at the prescribed times.
- Night matches will not be approved.

Parking and Traffic

- Clubs will be required to have their officials and members park in the reserve carpark in the first instance which provides approximately 80 off-street car parking spaces.
- Council will undertake behaviour education campaigns with clubs.
- Council will monitor the use and operation of the available off-street and on-street parking to ensure the street(s) function appropriately, with any amendments to parking restrictions and/or arrangements to be implemented in alignment with the Municipal Parking Strategy.

Tree planting

- Council will undertake additional canopy tree and shrub plantings around the perimeter of the reserve.

Community Engagement

- Residents may contact JHAllan@mvcc.vic.gov.au at any time with concerns relevant to use of the sports field. Council undertakes to respond to resident contact in accordance with the Customer Charter.
- Meetings will be held with impacted residents, at 6 and 12 months post installation to capture further feedback. Impacted residents will be contacted at 6 and 12 months post installation and invited to attend a meeting with relevant Council officers, with updates to be provided to Councillors.
- Clubs will be managed under the requirements of the Seasonal Sport Allocation agreement.
- This management plan will be reviewed at 12 months, after Council officers have met with impacted residents and assessed the compliance with requirements of this management plan by soccer users, which will be implemented by officers for 12 months, including an assessment of environmental and amenity impacts such as noise and light-spill.
